PROFESSIONAL SUMMARY

Computer Science Engineering graduate with hands-on experience in software development, testing, and debugging. Proficient in Python, Java, SQL, and web technologies, with practical experience in deploying and optimizing Large Language Models (Mistral-24B, LLaMA-70B) using NVIDIA NIM and Triton. Skilled in performance benchmarking, monitoring, and building scalable systems. Seeking an entry-level role to contribute and grow in a dynamic environment.

EDUCATION

Bachelor of Computer Science: Sri Chaitanya Technical Campus 2020 - 2024
CGPA: 7.58

Higher Secondary Education in MPC: Gouthami Junior College 2018 - 2020
CGPA: 9.43

TECHNICAL SKILLS

Languages	Python, Core Java, SQL
Web Technologies	HTML, CSS, React, Spring Boot
Database	PostgreSQL
Testing Tools	Selenium, Postman, JMeter
Tools	Jenkins, Git, GitHub, Grafana, Prometheus, Docker.
Core Concepts	DSA, OOPs, DBMS, Operating Systems, Computer Networks
AI/LLM Deployment	Large Language Models(Mistral-24B, LLaMA-70B), NVIDIA NIM, Triton Inference-Server, Inference Optimization (Latency, Throughput, Concurrency)

EXPERIENCE

Software Automation Apprentice Aug 2025 - Aug 2026
Cisco *Karnataka, Bangalore*

- Collaborated with cross-functional teams on development, testing, and debugging of applications.
- Contributed to testing and implementation processes, improving application reliability
- Deployed and tested Large Language Models (Mistral-24B, LLaMA-70B) using NVIDIA NIM and Triton
- Performed performance benchmarking using aiperf, analyzing latency, throughput, and concurrency
- Monitored system performance using Grafana and Prometheus dashboards.

PROJECTS

American Sign Language Recognition

Python, ML, NLP

Built a machine learning-based system to recognize multiple sign language gestures and support communication for deaf and mute individuals.

Bug Tracking and QA Workflow Management System

React, Spring Boot, PostgreSQL

Built a workflow management application supporting bug creation, assignment, and status tracking for QA and development coordination.

CERTIFICATIONS

- Implementing and Administering Cisco Solutions (CCNA) 2.2 – Cisco
- Python for Data Science – by Infosys Springboard :
